

Project Expenditure Approval Form

To: Mr. Herman Blackie (Study Leader)

From: Roelof Stephanus (Stephan) Du Plessis (Student Number: 34308229)

Re: Expenditure approval - Lack of Hands on STEM

Please find below the completed expenditure form for the electronic components required for this project.

Two things I'd appreciate your input on before I submit this for ordering:

1. The Cost Centre field below is not yet completed - could you please provide or confirm the correct code for this project's budget?
2. Could you please review the component list and confirm you're happy with the selections?

Total cost comes to R495.65, comfortably within the R4,500.00 allocated for BEng Computer Electronic. Once confirmed, I'll submit quote requests to the listed vendors and forward the completed form to Mr. Rhoderick Williams for processing.
